

**Source Subtree**

**Top Source  
Directory  
(SALOME\_ROOT)**

The Source Subtree is represented by a rounded rectangular container. Inside, a rectangular box contains the text 'Top Source Directory (SALOME\_ROOT)'. Three lines extend downwards from the bottom of this box, representing the start of a tree structure.

**Build Subtree**

**Top Build  
Directory**

The Build Subtree is represented by a rounded rectangular container. Inside, a rectangular box contains the text 'Top Build Directory'. Two lines extend downwards from the bottom of this box, representing the start of a tree structure.

**Install Subtree**

**Top Installation  
Directory**

The Install Subtree is represented by a rounded rectangular container. Inside, a rectangular box contains the text 'Top Installation Directory'. Three lines extend downwards from the bottom of this box, representing the start of a tree structure.
